

COMERAGH MOUNTAINS

COPPER COAST

N25	Playground
Coast Road	Shop
Regional road	Play Farm
Local Road	Cafe
Greenway	Pub
Walking trail	View Point
Bus route 367-367A	Bus Stop

Always be mindful of traffic when walking on public roads.
 The cliffs are unprotected and affected by undercutting due to erosion, this means that they may appear stable from the top but be dangerously unsupported underneath.
 When exploring along the beaches, always make yourself aware of the tides times as areas can become cut off at high tide
 Always swim or surf within your ability and never alone
 In an emergency call 112 and ask for coastguard

PLACES OF INTEREST

A - Fenor Bog

This biodiversity rich, rare naturally regenerating fen habitat, is a refuge for species that are found nowhere else in the county. Loop walk 1.2km (15min)

B - Ann Valley Walk

The trail meanders through beautiful constructed wetland ponds, woodland and marshland along the Anne river connecting Dunhill and Annestown. Keep an eye out for protected wildlife such as otters and herons on your way. A simply wonderful example of an amenity developed by local landowners and the community. Linear walk 5km(1hr) fgrade A fully accessible for all abilities.

C - Dunhill Castle

Wonderfully atmospheric with commanding views and a checkered history, located halfway on Ann Valley Walk From the castle you can also follow a side path to the remains of a medieval church and graveyard.

D - Fire and Ice

The stretch of road between Annestown and Bunmahon offers outstanding views of the coast in all directions. Multiple off road view points are located here. Look out for the Fire and Ice sculpture representing the geological formation of the Copper Coast rocks.

E - Tankardstown

Industrial heritage buildings from 19th century copper mining works. The landscaped surroundings with their coastal vistas are a feature in themselves, one of the key sites of the UNESCO Global Geopark

F - Geological Garden and Boardwalk

The path in the geological garden will guide you through time depicting the Earth's formation and evolution of life. Here also feature two ogham stones aligned to the solstice and the curious 'cursing stone' The boardwalk takes you on a loop over Bunmahon beach and is wheelchair accessible from the west end.

G - UNESCO Global Geopark Visitor Centre

Located in a renovated former church of Ireland building Here you can learn about geology, see fossils and minerals, learn about the mining history and local connections. Visitor information, Cafe and gift Shop. Free entry. Opening hours vary seasonally please check website www.coppercoastgeopark.com

H - Tra na mBo Cliff Walk

Beguín at the surf school, a short steep road than a track along the cliff tops with imposing views over the bay takes you along the headland to reach Tra na mBo. A path leads down to the sea stack on the beach. Linear walk 3km(35min) moderate, best visited at low tide

I - Ballydowane

One of Ireland's top rated beaches, best visited at low tide. An important geosite, in the cliffs here you can observe Devonian sandstone (purple hues) created when the copper coast was underwater in a tropical sea, coming together with older Ordovician andesite rocks (greenish colour) that are volcanic, a time gap of 80million years.

J - Stradbally Village to Durrow

The prettiness of the village strikes all visitors. The ruins beside St James church are medieval, the older parts built in the 1200s. At the foot of the hill is the bridge over the river Tay and a gate leading into the unique cove. A 11km cycle loop links the village to the greenway access where you can visit Durrow tunnel and Ballyvoyle viaduct

K - Gaulstown dolmen

One of the finest examples in Ireland of a prehistoric portal tomb known as a Dolmen, 3500-4000 BC. Accessible through private land, please be mindful of not blocking access when visiting, not suitable for large groups

3 Monavaud Lodge

Located in a peaceful village location, the house has been lovingly restored and is available for self catering, member of Failte Ireland and ISCF, pet friendly.

COPPER COAST

and

COPPER COAST

UNESCO Global Geopark

History Captured in Stone

The Copper Coast is a spectacular record of the earth's past. Its rocks and geosites tell the story of undersea volcanoes, arid deserts, and dramatic iceages. Its human history is inextricably linked with its landscape from ancient times to now and into the future

produced by Copper Coast Tourism Network
